PROFESSIONAL SUMMARY

Full Stack Developer with 3+ years of experience building scalable, production-ready web applications. Skilled in developing robust APIs, writing efficient database queries, and crafting responsive, user-focused interfaces. A dependable collaborator who thrives in Agile teams and consistently delivers clean, maintainable code.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript

Backend: Node.js, Express.js

Frontend: Angular, RxJS, Angular Material, HTML, CSS

Database: MSSQL, PostgreSQL, MongoDB, MySQL, Complex SQL Queries, Dynamic Data Handling

Backend Concepts / Tools: REST APIs, Microservices, Socket.io, Rate Limiting, Cron Jobs, JWT Authentication, Logging, API Documentation (Swagger)

Caching / In-Memory Database: Redis, Node-Cache

Event Streaming / Message Queues: RabbitMQ, Redis

Deployment: Docker, CI/CD (GitLab CI, Jenkins)

Version Control: Git, GitLab

WORK EXPERIENCE

Full Stack Developer | Full-time
SmartConnect Technologies Pvt Ltd

May 2023 – Present
On-site • Mumbai, India

- **Developed and maintained** dynamic, responsive web applications using Angular and Node.js, building reusable components that streamlined feature delivery across projects.
- **Designed and integrated RESTful APIs** connecting Angular front-ends to Node.js services and MSSQL databases, ensuring reliable end-to-end data flow.
- **Wrote and optimized** complex SQL queries for dynamic data handling, reporting, and improved application performance.
- **Contributed to peer code reviews** and helped establish coding standards and best practices that improved code quality and consistency across the team.
- **Collaborated** with cross-functional team members in sprint planning, requirement discussions, and on-time feature delivery.

Technologies / Skills Used : Angular, Node.js, MSSQL, SQL

PROJECTS

UNFYD.PITCH — Omnichannel Campaign Management Platform | *Company Project*

- **Built** a full-stack omnichannel campaign platform (Angular + Node.js) for creating, scheduling, and executing targeted campaigns across WhatsApp, Email, SMS, and Voice, with rule-based audience segmentation, consent management, and Excel-driven audience uploads.
- **Developed** Express REST APIs on a stored-procedure-driven MSSQL layer with JWT/JWE authentication, AES-encrypted payloads, RabbitMQ batch processing, and restart-safe schedulers for high-volume message dispatch.
- **Implemented** analytics dashboards (Chart.js funnels and trends), reusable paginated/filterable data tables, and Excel/PDF exports across lazy-loaded Angular feature modules.

Technologies / Skills Used : Angular, TypeScript, RxJS, Angular Material, Chart.js, Node.js, Express, MSSQL, RabbitMQ, JWT, REST APIs

Volunteer Management System — NEST4US (US-based NGO) | *Freelance* | [Live Demo](#)

- **Built** a live, actively-used full-stack volunteer portal for NEST4US (a US-based NGO), where volunteers log service hours with photo proof and earn recognition tiers, and admins review submissions through approval workflows.
- **Implemented** JWT and Google OAuth authentication with role-based access, plus Chart.js analytics dashboards and client-side PDF/Excel report exports.

Technologies / Skills Used : Angular 18, TypeScript, RxJS, Angular Material, Chart.js, JWT, html2pdf/pdfmake

Real-Time Chat Application | [Live Demo](#)

- **Built** a real-time messaging application enabling users to sign up, log in, and chat instantly with anyone worldwide.
- **Implemented** live bidirectional communication using Socket.io, with a responsive Angular interface and Firebase hosting.

Technologies / Skills Used : Node.js, Socket.io, Angular, HTML, CSS, Firebase

EDUCATION

Bachelor of Banking & Insurance (B.B.I.)

L.N College, Mumbai, India

May 2021
